ISUZU CITIPORT

Anadolu Isuzu the one and only "Isuzu Manufacturing Management (IMM)" certified Isuzu factory in Europe.

ISUZU CITIPORT

Taking into account the actual needs of the major metropolises and municipalities, Citiport has been designed in a way to create the concept of "the ideal solution for public transportation". Citiport has an attractive exterior outlook with its outstanding and unique design. Not surprisingly, Citiport was awarded as the most "comfortable and ergonomic bus of Europe" in 2015.

Citiport 12 is powered by Cummins engine which produces 289 HP and 1087 NM torque. Powertrain is well supported by ZF Ecolife full automatic transmission, which secures an excellent traction and a smooth driving experience.

EBS, ABS, ASR, integrated retarder, hill holder, independent air suspension and integrated CCTV system allow a safe ride for the driver and the passengers in intense city traffic.

Ergonomic dashboard, heated driver seat, driver cabin, digital A/C, passenger counting system and optional automatic engine oil refilling system significantly enhance drivers comfort.
