SUZU VISIGO

Visigo is powered by ISUZU engine which produces 204 PS. ISUZU manual transmission is standard. With the passenger capacity up to 39 seats, Visigo's interior layout and independent air suspentions offers a high level of comfort to its crew and passengers, just like a full-size coach.
5.5 m3 luggage compartment makes the vehicle an ideal partner for mediumhaul journeys and excursions. The driver's comfort and safety on board are essential for a safe and pleasant journey. That's why Visigo's driver compartment is designed in a way to assure them both. Individual AC system for drivers, automatic driver window, DRL lightning equipment are only a few of the features that make life easier and safer for drivers.
